The screenshot displays the YouTRACK application interface. At the top, the YouTRACK logo is on the left, and navigation tabs for 'Create Issue', 'Issues', 'Agile Board', and 'Reports' are in the center. The user 'Andreas Neumann' is logged in, as indicated in the top right corner.

A red rectangular border highlights the search bar area. Inside this border, on the left, is a dropdown menu currently showing '-'. To its right is a search input field containing the text 'for: f.stehle in'. Further right in the border are a close button (X) and a search button (magnifying glass icon).

Below the search bar, the text 'Found 150+ issues sorted' is visible. To the left of the main issue list is a 'Filter' sidebar. To the right of the search bar is a 'Suchleiste' (search bar) label. Below the search bar, there are several icons for filtering and sorting, including a checkbox, a person icon, a speech bubble, and a list icon. A dropdown menu is open, showing options like '#In Progress' and '#Incomplete' under the heading 'by project'. Below this menu, there is a note: 'Use ← to complete selected item'.

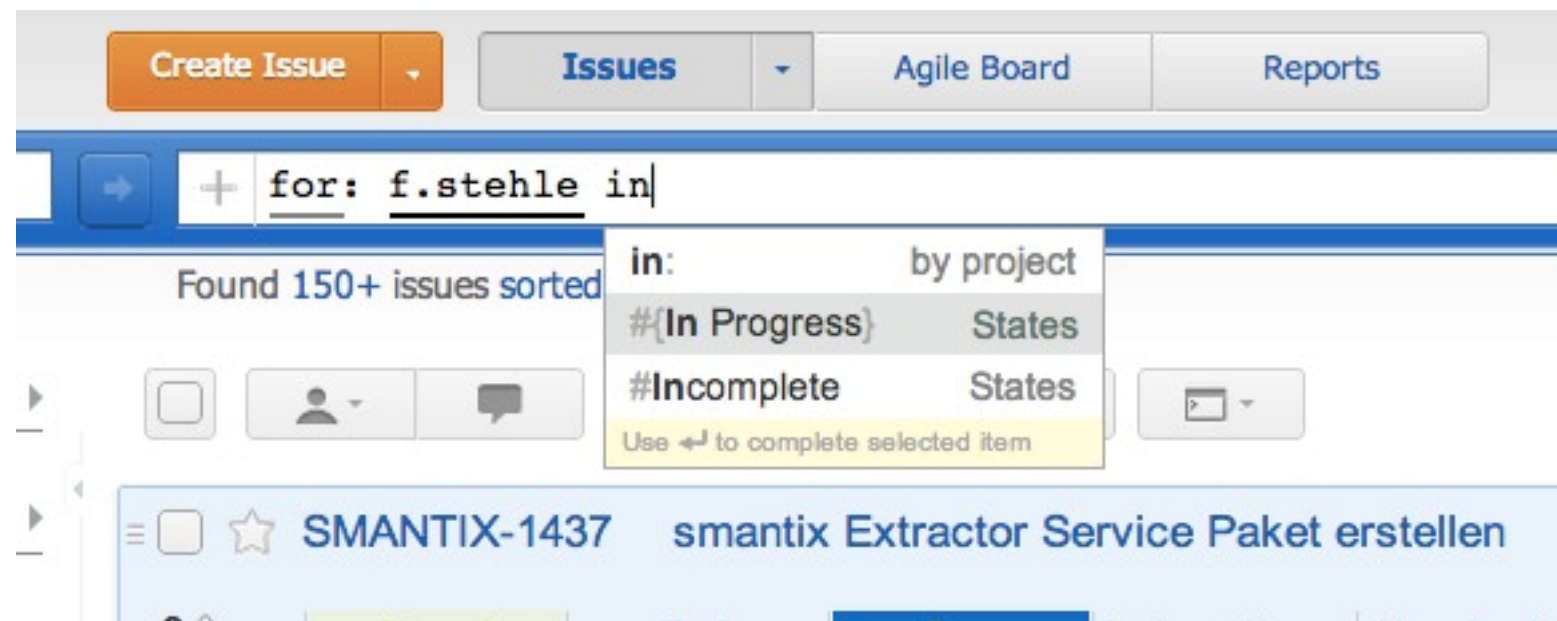

The main area of the interface displays a list of issues. Each issue is represented by a horizontal bar with various colored segments (blue, green, yellow, orange, red) indicating different states or priorities. The list is sorted by project, as indicated by the 'by project' label.

Suchsyntax

```
#Task for:me by:f.stehle #{This  
month} sort by: {resolved date}
```

Tree View

Ticket Creation

The screenshot shows the 'Create Issue' form in the YouTrack application. The form is titled 'Draft saved moments ago (10:40). [Clear draft](#)' and includes a 'Create YouTrack Issue' button and a 'Bookmarklet' link. The form fields are as follows:

- Project:** A dropdown menu with 'smarchive' selected.
- Summary:** A text input field containing 'Creating a Task'.
- Description:** A large text area containing 'There should always be a description.'.
- Issue is visible to:** A dropdown menu with 'All Users' selected.
- Properties (Eigenschaften):** A row of tabs: 'Normal' (selected), 'Bug', 'Submitted', 'Unscheduled', 'Next Build', and a question mark.
- Buttons:** 'Create Issue' and 'Close' buttons are located at the bottom right.

Annotations in the image include:

- A green arrow pointing to the 'Create Issue' button at the top, labeled with a green '1.'.
- A yellow box highlighting the 'Project', 'Summary', and 'Description' fields, labeled with a yellow '1.'.
- A yellow box highlighting the 'Properties' tabs, labeled with a yellow '2.'.
- A green arrow pointing to the 'Create Issue' button at the bottom, labeled with a green '2.'.
- The word 'Beschreibung' (Description) is written in yellow text next to the description field.
- The word 'Eigenschaften' (Properties) is written in yellow text next to the properties tabs.

Draft Creating a Task
There should always be a description.

Agile Board

The screenshot displays the YouTRACK Agile Board interface. At the top, the YouTRACK logo is on the left, and navigation tabs for 'Create Task', 'Issues', 'Agile Board' (selected), and 'Reports' are in the center. On the right, there's a 'Board Navigator' and a user profile for 'Andreas Neumann'. Below the navigation bar, a search bar contains 'Smantix (SMANTIX)' and a filter for '#{smantix Sprint 2}'. A toolbar with various icons is positioned below the search bar. The main area features a Kanban board with columns: 'Open (7)', 'In Progress (3)', 'Code Complete (0)', 'Deployed to dev (0)', 'Deployed to stage (0)', 'Fixed (5)', and 'Verified (0)'. Two task cards are visible: 'SMANTIX-1458 Layout Extraction Library' and 'SMANTIX-1459 Setting up queues on DEV & Stage'. The first card has two sub-tasks in the 'Fixed' column: 'SMANTIX-1 Erweiterung von DocXML-Format' (4h) and 'SMANTIX-1 PDF in Layout Extraction Library einlesen' (2d). The second card has two sub-tasks in the 'Open' column: 'SMANTIX-1 Create smantix queues in DEV environment' (3h) and 'SMANTIX-1 Create smantix queues in STAGE environment' (2h).
